Description

The CIA Factbook has geographic, demographic, and economic data on a country-by-country basis. In the description of the variables, the 4-digit number indicates the code used to specify that variable on the data and documentation web site. For instance, <https://www.cia.gov/library/publications/the-world-factbook/fields/2153.html> contains documentation for variable code 2153, network users.
